NEWS RELEASE: March 7, 2021

Georgia/Carolinas PCI announces Retirement of Peter Finsen

Peter Finsen, FPCI, Assoc. AIA and G/C PCI Emeritus is retiring after 20 years serving as Executive Director & CEO of Georgia/Carolinas PCI effective March 7, 2021.

Since December of 2001, Peter provided administrative and technical/educational/marketing promotion services for Georgia/Carolinas PCI, an independent regional Chapter of the Precast/Prestressed Concrete Institute (PCI). During his tenure, Peter served on several PCI councils and committees, served on the PCI Board of Directors, chaired the Regional Council and in 2014 Peter was conferred as a Fellow of the Institute. Peter has also served and will continue on the PCI Foundation Board of Trustees. He has also participated in and served on several additional association boards, including the Georgia Society of Association Executives (GSAE).

Over 20 years, Peter increased producer and associate firm membership and the annual budget of the association, and also developed an association re-branding program. He established relationships with A/E/C industry firms and associations and developed and presented education and promotion programs for commercial (buildings) and transportation (bridge) markets. He established relationships and lectured at architectural and civil engineering universities and helped establish PCI Foundation-sponsored design studios at 5 area universities. For these efforts, Peter was awarded the inaugural PCI Foundation Partner Award.

At the 2021 Winter Board Meeting of Georgia/Carolinas, Peter was nominated and awarded Emeritus status in the association.

Peter is being succeeded by Ray Clark as Executive Director of Georgia/Carolinas PCI. Ray noted, regarding the retirement of Peter Finsen: *"Your twenty years of dedicated service to Georgia/Carolinas PCI has built a strong foundation on which I look forward to continuing to maintain and build upon further. I believe we have a dedicated membership that is willing to tackle the strategic plan that you, the Executive Committee and the Board worked diligently to develop."*

Georgia/Carolinas PCI is dedicated to expanding the market by advancing the design, manufacture and use of precast and prestressed concrete products and solutions in Georgia, North Carolina, South Carolina
